

## AMK Technologies

1-15-2006

Dear AMK Technologies customer:

We are extremely pleased to let you know that Intelitech Computer Solutions, Inc. has completed the acquisition of AMK Technologies, Inc.

You are a valued customer, and your satisfaction and peace of mind are our primary concerns. By bringing the two companies together we will be able to better serve your needs as a single source for your computer and network support. Your existing business relationship with AMK is very important. Intelitech appreciates your business and would like to assure you that in the future you will continue to receive the same quality support. You will also continue to work with the same support technicians you have in the past.

Intelitech Computer Solutions has been in business since 1996 and understands the need for superior technology support at reasonable prices. We provide support services for small businesses and full time outsourced technology support for our larger customers. The small business support side of our company was formed to provide enterprise level support to small businesses that may not need a full time information technology staff.

The success of this merger will be determined by our ability to address your needs as a customer. As such, I wanted to write you personally and let you know that Intelitech Computer Solutions plans to carry forward with AMK Technologies support processes.

Should you need further information, please feel free to contact me directly and I will be more than happy to answer any questions you may have.

From all of us at Intelitech Computer Solutions, we very much look forward to a continued working relationship.

Sincerely,  
Anthony Newlin  
Director of Services
